

GOKULA KANNAN

Technical Lead · 5× OutSystems Certified · Enterprise Solutions

+966 050 330 3578 · developergeekay@gmail.com · [linkedin.com/in/developergeekay](https://www.linkedin.com/in/developergeekay) · Riyadh, Saudi Arabia

PROFESSIONAL SUMMARY

Technical Lead with 10+ years of experience delivering enterprise solutions across banking, finance, and enterprise domains using OutSystems and modern web technologies. Expertise in solution architecture, system design, integrations, performance optimization, and technical leadership. Creator of OutSystems DevTools, a React-based Chrome DevTools extension for enterprise applications.

CORE COMPETENCIES

Solution Architecture	Technical Leadership
System Design	Enterprise Integrations
Performance Optimization	Data Modeling
Developer Tooling	Release Management

PROFESSIONAL EXPERIENCE

Technical Lead (OutSystems) · Riyadh Capital

January 2025 – Present | Riyadh, Saudi Arabia · On-site

- ▶ Leading end-to-end architecture and development of the Enterprise Digital Platform — a large-scale OutSystems application covering UI, integrations, and modular components
- ▶ Designed scalable, reusable, high-performance front-end modules and full application architecture
- ▶ Conducted R&D and POCs for third-party integrations — identity verification (Regula, FACEKI) and payment gateway (HyperPay) — delivering working POCs within 2-week timelines
- ▶ Built custom Cordova-based native plugins to integrate external SDKs where no official OutSystems plugins were available, enabling advanced mobile capabilities
- ▶ Played a key role in pre-production stabilization — identifying, debugging, and resolving critical issues under high-pressure delivery cycles
- ▶ Provided technical guidance and troubleshooting support to team members, improving issue resolution time and overall delivery efficiency
- ▶ Collaborated with business, QA, and stakeholders to ensure alignment between requirements, implementation, and timelines
- ▶ Documented architecture, implementation approaches, and technical decisions in Confluence for knowledge sharing

Technical Lead · Onward Technologies Limited

June 2023 – November 2024 | Chennai, India · Hybrid

- ▶ Provided technical leadership and architectural oversight for enterprise solution delivery
- ▶ Spearheaded strategic project execution for Bentley Motors — Dealer Award Systems — defining solution architecture and guiding development teams in best-practice technical designs
- ▶ Oversaw deployment planning, release management, and post-production support activities
- ▶ Mentored development teams to enhance technical competency and delivery efficiency
- ▶ Delivered projects within committed timelines while maintaining quality and stakeholder expectations

Senior Software Engineer · Mphasis

August 2022 – June 2023 | Chennai, India · Remote

- ▶ Led data model restructuring initiative eliminating duplicate entities and optimizing query architecture — achieving a 53% performance improvement
- ▶ Mentored 2 new engineers, accelerating onboarding and overall delivery milestones
- ▶ Key contributor to design and implementation of new mobile application features
- ▶ Contributed to the First Notice of Loss (FNOL) insurance platform — advising on domain architecture, enhancing interfaces, and supervising implementation

Senior Software Engineer · Netlink Software Group America Inc

March 2021 – August 2022 | Chennai, India · Hybrid

- ▶ Delivered Riyad Online (Riyad Bank) — developed user-friendly web forms, optimized web apps for speed, security, and scalability, and created CMS interfaces for clients
- ▶ Delivered Riyad Tadawul Market mobile application — converted business requirements into technical solutions, led code review, and managed version control and releases
- ▶ Collaborated with project managers, developers, QA, and customers to resolve complex technical issues
- ▶ Analyzed proposed technical solutions against customer requirements and recommended best-fit approaches

Software Engineer · Netlink Software Group America Inc

July 2019 – March 2021 | Chennai, India · Hybrid

- ▶ Delivered Qualified Candidate Database (QCD) — a recruitment platform with scalable, API-centric infrastructure
- ▶ Promoted technical leadership to entry-level and junior engineers in complex enterprise environments
- ▶ Designed intuitive UI/UX solutions and coordinated large-scale software deployments

Web Developer · Hexlope Technologies

April 2018 – May 2019 | Chennai, India

- ▶ Developed Color Visualizer Tool and Yellow Stack cloud migration project
- ▶ Converted mockups into production-ready web presence using HTML, JavaScript, AJAX, and JSON
- ▶ Deployed existing application into cloud environment, integrating auto-scaling, monitoring, and disaster recovery services
- ▶ Implemented UI/UX improvements based on customer feedback with post-launch patches

Web Developer · Teamwork Techknowledge

June 2015 – October 2017 | Chennai, India · On-site

- ▶ Built Omdaram (e-commerce), Rapid Serviz (home services platform), and Choyz (online shopping site)
- ▶ Developed functional databases, applications, and servers; integrated secure payment gateways across all platforms
- ▶ Collaborated with engineers to evaluate and improve software and hardware interfaces

KEY PROJECTS

Enterprise Digital Platform — Riyad Capital

Jan 2025 – Present · Riyad Capital

- ▶ Architected and delivered a large-scale enterprise digital platform using OutSystems, covering UI, back-end integrations, and modular component design
- ▶ Led R&D and POCs for Regula (document verification), FACEKI (facial recognition), and HyperPay (payment gateway) — enabling rapid vendor evaluation within 2-week windows

- Engineered custom Cordova-based native plugins to extend OutSystems mobile capabilities beyond platform limitations by integrating external SDKs
- Drove pre-production stabilization and critical issue resolution under high-pressure delivery cycles; documented all architectural decisions in Confluence

OutSystems DevTools — Chrome Extension

Feb 2026 – Present · Personal / Community Project

- Architected and developed a Chrome-based developer tooling extension for OutSystems applications
- Rebuilt the entire architecture in React (v3) for improved scalability, modularity, and performance
- Implemented: runtime application inspection, React component tree analysis, network traffic monitoring, mock rule engine, client storage & Local DB inspection
- Community-driven initiative aimed at strengthening the OutSystems ecosystem and developer experience

Dealer Award Systems — Bentley Motors

2023 – 2024 · Onward Technologies

- Designed and delivered a dealer award management platform for Bentley Motors
- Defined solution architecture and led technical implementation teams end-to-end

Riyad Online & Riyadh Tadawul Market — Riyadh Bank / Riyadh Capital

Nov 2021 – Jul 2022 · Netlink Software Group

- Developed Riyadh Online secure internet banking — web forms, CMS, cross-browser compatibility, and performance optimization
- Built Riyadh Tadawul Market investment mobile app — requirements analysis, code review, release management

First Notice of Loss (FNOL) — Mphasis

Sep 2022 – Nov 2022 · Mphasis

- Insurance claim management platform — supervised architecture, design, and implementation of company-wide applications
- Advised management and technical staff on domain solutions; enhanced interfaces for better end-user functionality

CERTIFICATIONS

OutSystems Tech Lead (OutSystems 11)	OutSystems	Mar 2023
Front-end Developer Specialist — O11 and ODC	OutSystems	Feb 2023
Associate Developer ODC	OutSystems	Feb 2023
Mobile Developer Specialist — O11 and ODC	OutSystems	May 2022
Associate Reactive Developer	OutSystems	Jun 2021
Angular — The Complete Guide	Udemy	Aug 2021
Neutrinos Certified Professional Developer	Neutrinos	Nov 2019

TECHNICAL SKILLS

OutSystems • ODC • React • Angular • JavaScript • TypeScript
REST APIs • SQL • Cordova • Git • Azure DevOps • Confluence

EDUCATION

Master of Computer Applications (MCA)

Jaya College of Arts & Science · 2015 – 2017

HONORS & AWARDS

- Best Team Player Award (*Neutrinos*)
- Laurel Award (*Mphasis*)
